We offer services ranging from replacing cracked or damaged glass & LCD screens, repairing charge port issues, Virus removal, Password resets, operating system installations, Hardware and Software installation and upgrades. Cell Phone and Computer Repair also offers data recovery for all mobile devices! We can recover your lost data from your SD card or internal memory storage for your cell phone or tablet.

## PC/ Laptop Repair Services

---

Microsilicon Lancer has top of the line professional technicians on hand to cater to all of your computer needs! Slow computer? Virus troubles have you done? Is laptop not powering on? Need hardware or software upgrades? Lost valuable data? Cracked laptop screen? Battery or charge port issues? Forgot your password and need help!?! No worries! Call Microsilicon Lancer today for a fast and reliable repair!

## WE SERVICE ALL KINDS OF COMPUTERS

---

Our computer repair services include desktop and laptop computers of all types and brands, particularly PC type computers. We can also repair/replace your laptop screen or backlighting issue depending upon your computer make and model. Your laptop computer keyboard replacement is also possible, once again, depending upon make and model. Having difficulties with your printer(s)? We provide printer troubleshooting and printer setup.

## WE'LL BRING YOUR COMPUTERS UP TO SPEED

Is the computer running slowly? This can be agonizing. You or your staff members can go crazy waiting for programs to process, documents to print; the list is endless. We provide desktop and laptop tune-ups to get top PC performance at a very reasonable price. Our computer maintenance programs will save both time and money and keep your computers running smoothly. Having computer virus issues? We can scan, detect and remove viruses for you. We can also set up a virus protection program to block viruses infections.

## COMPUTER SYSTEMS

### CUSTOM COMPUTERS FOR BUSINESS AND HOME

Your computer system is an important investment, a major business asset, and a primary component of your entire business system. We can build a custom computer system for you that will perform the services you require. We can save you money and time developing precisely what you need so you don't over-spend and purchase computer power will never use or hopelessly underpowered computers. Our pricing is quite affordable and you simply will not be at the service when compared to online shopping or the big box stores. We are experts at building desktop computer systems for business or home use so call us at +254 (0) 202 440 138 so we can help you with your new computer system.

## SCREEN REPLACEMENTS

We replace screens on any brand cell phones, tablets, and laptops. Get your phone back to looking new again.
